Garden Seed Price List

**PRICES SUBJECT TO MARKET FLUCTUATIONS.
ASK FOR SPECIAL PRICES ON LARGE
QUANTITIES.**

Prices on vegetable seeds usually are good for the entire season, but are subject to stock unsold. In case of a very heavy demand we may be sold out on some varieties before the season is over and in such cases prices will have to be consistent with cost prices of new stock. If you order early you will avoid this.

Seeds will be invoiced at prices reflecting any reductions in the market, although our list herewith may be higher.

For gardeners—please notice that many of the seeds listed herein are imported direct from the growers and are so marked. As is well known these importations are much better adapted to this climate than some domestic-grown seeds.

These considerations should enter into your choice of seeds.
